DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, 17, and 18 drawn to a composition comprising a modified nucleotide including a molecular and/or tag atomic tag to alters base incorporation fidelity, classified in class 536, subclass 23.1.
- II. Claims 7-13 and 15, drawn to method comprising the step of adding a modified nucleotide including a molecular and/or tag atomic tag to alters base incorporation fidelity, classified in class 435, subclass 91.1.
- III. Claim 14, drawn to a method for making blunt-ended fragments, classified in class 435, subclass 91.1.
- IV. Claim 16, drawn to a method of inhibiting or preventing pyrophosphorolysis, classified in class 435, subclass 6.
- V. Claims 19-20, drawn to a method for increasing the fidelity of replication, classified in class 514, subclass 44.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-V are related as product and processes of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of

Art Unit: 1637

using that product (MPEP § 806.05(h)). In the instant case the composition of group I can be used for the invention of Group II, III, IV or V.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
